APPENDIX No. 1

MEMORANDUM ON FEDERAL POSITIONS EXCEPTED FROM THE COMPETITIVE SYSTEM BY THE CIVIL SERVICE COMMISSION

Authority

By Executive order, the President has authorized the Civil Service Commission to exempt from the competitive civil service positions which otherwise would be subject to the Civil Service rules and regulations governing appointment and employment, generally. Civil Service Rule VI defines Schedules A, B, and C and grants authority for the Civil Service Commission to list positions in these excepted schedules. Under Civil Service Rule IX, which established the Executive Assignment System for positions in grades GS-16, GS-17, and GS-18, the Commission may except positions and authorize agencies to fill them under noncareer executive assignment.

The Commission has been given the authority to revoke Schedule A, B, and C listings. It also periodically reviews exceptions made under Rule IX and, after consultation with the agency concerned revokes exceptions of executive assignment positions which no longer meet the criteria for exception.

The Commission makes decisions about exceptions and revocations after consideration of agency justification and its own independent reviews and analyses. These decisions are made by the Commissioners personally and are not delegated.

Categories of exceptions

Noncareer executive assignment.—These assignments are made to positions in grades GS-16, GS-17, and GS-18 which are either of a top policy-determining character or have a close and confidential working relationship to a top policy official. The positions are of the type which share with Presidential appointees the advocacy of current administration policies and help assure control of the executive machinery of government by the political party in power.

Schedule C.—This schedule is for positions of a confidential or policy-determining character not in grades GS-16, GS-17, or GS-18.

Schedule A.—This schedule is for positions, not of a confidential or policy-determining character, for which it is not practicable to hold any kind of examination, either competitive or noncompetitive. Examples are positions of attorneys for which examination is forbidden by law, student interns, and certain part-time jobs depending on residency in isolated locations.

Schedule B.—This schedule is for positions, not of a confidential or policy-determining character, for which it is not practicable to hold a competitive examination, but for which a noncompetitive examination (meeting basic requirements) is required, such as communications intelligence positions in a military department.

Filling excepted positions

Agencies generally establish qualification requirements for excepted positions, although the Civil Service Commission does this for positions listed in Schedule B and for positions authorized to be filled by noncareer executive assignment. The Commission must approve the qualifications of all appointees to positions in grades GS-16, GS-17, and GS-18.

Removals from excepted positions

Because of their policy-determining or confidential nature, positions authorized to be filled by noncareer executive assignment and positions in schedule C may be subject to change in a change of National Administration. However, some incumbents of these and other excepted positions are entitled to certain protections, which are outlined in the table on the following page.

APPENDIX No. 2

6. Veterans with 1 year or more of current continuous employment serving in positions excepted by statute; in schedule A, B, or C; or filled by noncareer executive assignment.	He must be given a reasonable time to answer. His reply must be considered by the appointing officer. He must be given a written decision containing the reasons for the action and informing him of his right of appeal to the Commission.	Appeal to Civil Service Commission covers sufficiency of reasons for removal as well as compliance with prescribed procedures.

¹ Personal status is civil service status acquired during a period of competitive service.

² An employee has status in his position if (a) he was serving, with civil service status, in a position in the competitive service when the Civil Service Commission listed the position in schedule A, B, or C, and (b) he is still serving in that position. This covers employees in attorney positions on January 23, 1955, who were serving with civil service status in attorney positions on May 1, 1947, and who have served continuously in attorney positions between those dates, even though movement to a different agency or activity between those dates may have been effected as an "excepted appointment."
