The Honorable Clay T. Whitehead Director, Office of Telecommunications Policy Room 770 1800 G Street, N.W. Washington, D.C. 20504

Dear Tom:

I am very glad that you could join us for dinner in Poughkeepsie last week, and hope that your pre-dawn start the next day was not too hurried.

The question of how to regulate a utility in a rapidly changing social and technological environment is a most touchy one to answer. As you could judge from the length and vitality of the after-dinner discussion following your opening remarks, the Committee and its guests greatly appreciated your presence at our table.

Sincerely yours,

Lewis

Room 770
1800 G. Street, N.W.
Washington, D.C. 20504

Dear Tom:

I would like to ask you a personal favor. The IBM Science Advisory Committee, a small outside group of outstanding scientists and engineers, is meeting with senior members of our R&D community on July 9 and 10 in our Poughkeepsie, New York, laboratories to discuss IBM's future in telecommunications and related activities. I would greatly appreciate it if you could be our honored guest at dinner on July 9 and initiate our traditional informal discussion after dinner by giving us your own view of the future.

It is our custom not to ask our guest to prepare any formal paper, but instead to ask him to be the iniator of a freewheeling discussion through perhaps fifteen minutes of opportunity to present your own views before the subject is open for free discussion.

I can assure you an excellent dinner and good company and would like to do anything I can to facilitate your travel to and from Poughkeepsie. If I may, I will ask Dr. A. V. Brown, Secretary of SAC, to give your office a call with respect to these arrangements if you can accept.

Sincerely yours,

Lewis

Lewis M. Branscomb
